

Protection	ESET	Kaspersky	Summary
Reactive and Proactive Protection <small>Virus Bulletin, www.virusbtl.com, Windows 7 Professional, August 2013</small>	91,3%	90,9%	With 220 000 new threats being created every day, Kaspersky will miss 880 more per day than ESET.
False Positives <small>AV-Comparatives, www.av-comparatives.org, File Detection Test of Malicious Software, March 2014</small>	1	9	A single false positive can be detrimental. If the AV identifies a non-malicious file as a threat, there is the potential to damage the machine, interrupt the workflow, lose information, or shut down critical applications.
Proactive Protection <small>AV-Comparatives, www.av-comparatives.org, Heuristic/Behavior Test March 2014</small>	90%	97%	Both solutions were given Advanced+ Awards from AV-Comparatives despite the 7 percentage-point difference.

Performance

File Access Lag Time (s/GB) <small>Virus Bulletin, www.virusbtl.com, System Drive, Windows 7 Professional, August 2013</small>	2,45	14,92	ESET is lighter and faster than Kaspersky; this is not only proven by independent test but also by business customers, which often say that Kaspersky business products are very heavy.
Installation Time (seconds) <small>PassMark, www.passmark.com, Performance Benchmark, February 2014</small>	41	185	
Boot Time (seconds) <small>PassMark, www.passmark.com, Performance Benchmark, February 2014</small>	16,1	27,1	

Awards

VB100 Awards <small>Virus Bulletin, www.virusbtl.com, 01/1998 - 06/2014</small>	86	69	In the last 12 tests ESET has passed 12 times. Kaspersky has passed 10, failed 1, and didn't enter 1.
Proactive Advanced+ Awards <small>AV-Comparatives, www.av-comparatives.org, 05/2004 - 06/2014</small>	18	12	ESET has been developing its heuristics engine since 1992. This is evident when looking at the amount of awards ESET has won compared to Kaspersky.
